Academic Affairs

November 1, 2014; Revised May 1, 2018

Establish standards for admission into the Honors College, maintaining Honors College Status, and earning the Honors Diploma and Honors Certificate.

College for first-time freshman, current UAH students, and transfer students; maintenance of Honors Status; and earning the Honors Diploma and/or the Honors Certificate. Probationary status and readmission policies exist for those students who fall below the standards.

Students must first be admitted to the University to apply for Honors College Admission. Admittance to the Honors College is at the discretion of the Honors Dean, who reviews all applications. Students who are not readmitted may reapply. The Dean considers all the following factors in making the decision to admit:

1. Whether the student meets at least two of the following criteria:
 - a. A high school grade point average of 3.5 or higher
 - b. ACT: Composite 28
 - c. SAT: 1200 (Math+ Verbal)
2. The quality of the student's application essays.
3. The student's involvement in significant extracurricular activities.
4. The student's performance in a personal interview, if necessary.
5. The student's creative portfolio or performance abilities.

Applications are accepted up until the dates given on UAH Honors Admissions web site.

Any current UAH student who is not a first-semester freshman with a cumulative GPA of at least 3.25 may join the Honors College. Admission is at the discretion of the Honors Dean, who will also consider the same factors (2) - (5) considered for first-time freshman. First-time freshman in the first semester are treated as first-time freshmen prior to matriculation for the purposes of application to the Honors College. After their first semester is complete, they will be treated as

current students for the purposes of admission.

Any transfer student with at least a cumulative 3.25 GPA may join the Honors College. Admission is at the discretion of the Honors Dean, who will also consider the same factors (2) - (5) as s/he considers for first-time freshman.

The Honors College maintains three rosters, updated at the end of each term. The roster of Active Honors Students includes all Honors Students in good standing. The roster of Probationary Honors Students includes all Honors students on Probationary status. The roster of Inactive Honors Students includes all former Honors Students who have been dropped from the college or who have elected to go inactive from the College.

In order to remain an Honors College student in good standing, students must maintain a 3.25 cumulative GPA. At the end of each term, all Honors Students' records are evaluated for compliance with this standard. Students who do not meet that standard will be placed on probationary status in the Honors College.

Students whose cumulative GPA drops below 3.25 will be placed on probation. Students will be notified by an official letter from the Dean of the College. During probationary status, students can continue to enjoy all the benefits of the Honors College. Probationary status lasts for the next term during which the student is enrolled including summer (if the student enrolls for summer classes). During this probationary period, students must raise their cumulative GPA to at least 3.25. Students who fail to raise their cumulative GPA to 3.25 will be placed on the inactive roster. However, students who achieve a term GPA of at least 3.25 during the probationary term will have probation extended for one, and only one, more term, at the end of which students who fail to raise their cumulative GPA to 3.25 will be placed on the inactive roster and lose all benefits and privileges associated with the Honors College.

The purpose of Probation is to recover the student's GPA so they can stay in good standing in the Honors College. Accordingly, the following additional steps should be taken for all students in probation:

- A. The student must meet with both the Honors Dean or the College Coordinator/Adviser.
- B. The student must establish a working plan for how to recover their GPA.

If a student's GPA drops below 3.25 due to extraordinary circumstances involving illness, extreme family situations, or the like, the student may petition the Honors Dean for continuation

Honors Status in writing and include a term date by which the cumulative GPA must reach 3.25.

A student who has been placed on the Honors College inactive roster may petition the Dean of the Honors College for reinstatement to active Honors Status if the student's cumulative GPA has returned to 3.25 or higher. The petition should include an explanation of both why the student wants to return to Honors Status and also why the student believes his or her performance will be able to sustain Honors Status. The Dean, in consultation with the Executive Committee of the Honors Council, has the discretion to readmit the student after an examination of the petition and all relevant records.

The following are required to earn an Honors Diploma:

- 1.
