Hazard Communication Program

Introduction

The Occupational Safety and Health Administration (OSHA) enacted the [Hazard Communication Standard, 29 CFR 1910.1200 \(App A\)](#)

Provide appropriate engineering controls as feasible

Conduct annual reviews to ensure that the Hazard Communication plan is up

Material Safety Data Sheets (MSDS)

The label is intended to be an immediate visual reminder of the hazards of the chemical in the container. It is not necessary that every hazard presented by a chemical be listed on the label. The MSDS is used for this purpose.

Products that are subject to EPA regulations (i.e. insecticides, fungicides, rodenticides, and disinfectants) and FDA regulations (i.e. food, food additives and drugs) must be labeled according to those agencies regulations. There is no need to re-label these contain

hazardous chemicals must also be labeled. Alternative labeling systems can be used, as long as it is readily available to the employees in the area throughout each work shift. This does not include MSDSs in lieu of labels.

Other forms of labeling include:

- Signs
- Placards
- Process Sheets
- Batch Tickets
- Operating Procedures

Non-Routine [ET] [BT] [TT] [f]
